Eldeco 3D Wall Panels

Eldeco brings your walls to life with modern and eco-friendly 3d wall panels made out of the fibrous residue of bamboo. The raw material used for our 3d wall panel is 100% recycled, compostable and is therefore 100% biodegradable. Eldeco 3d wall panels are designed that when put together they form a pattern. After installing them they can be painted in every colour which fits the interior of your house or a new to be created style. 3D wall panels are perfect for creating an eye-catching feature or a more subtle and interesting texture on the walls. The Properly placed lighting will dramatically enhance the three dimensional effect of the panels by increasing light and shadow and give an extra dimension At this moment there are more then 20 different models of Eldeco 3d wall panels available.

Our 3d panels are used in a wide range of commercial and domestic applications of ;
- *Foyers and reception areas including reception desk fronts*
